The Overall Score for the PTE Academic is based on the test taker's performance on all items in the test. The scores for Communicative Skills and Enabling Skills are based on the test taker's performance on only those items that pertain to those two categories. As many items contribute to more than one Communicative or Enabling Skill, the Overall Score cannot be calculated directly from the Communicative Skill scores or from the Enabling Skill scores. The graph below indicates the test taker's Communicative Skills and Enabling Skills relative to his or her Overall Score.

When comparing the Overall Score and the scores for Communicative Skills and Enabling Skills, please be aware that there is one exception in all measurement, depending on a variety of factors. For more information on interpreting PTE Academic scores, please refer to Interpreting the PTE Academic Score Report which is available at www.pearsonpte.com/interpreting/score.
